

Allianz Insurance plc

## Why choose Allianz for Engineering Inspection Services?

Allianz Engineering Inspection Services are dedicated to providing you with the service and support you need to keep your business moving.

Our aim is to be your engineering provider of choice, using a combination of outstanding technical skills, industry expertise and strong long term relationships built on trust.

For details on our range of inspection services, please contact your broker or visit [www.allianzengineering.co.uk](http://www.allianzengineering.co.uk)

### 10. Cover from start to finish

Our specialist engineering insurance and inspection services can be arranged together or independently – offering our customers a combined service offering.

### 09. Specialist expertise

All our Engineer Surveyors have a primary discipline of inspection and are specialists within their field, offering the highest level of technical competency and expertise.

### 08. Our customers have a voice

We openly encourage customers to contact us at any time. We also gather feedback via satisfaction surveys and service evaluations, always improving our service as a result.

### 07. Speed of service

Our Engineering Consultancy team provide a responsive, high quality service to meet customer needs.

### 01. More surveyors, wider coverage

With over 570 Engineer Surveyors, we can inspect a range of plant and machinery anywhere in the UK.

### 02. Accredited inspections

We're independently accredited by the United Kingdom Accreditation Service (UKAS) and provide an impartial and independent service.

### 03. Modern service for modern businesses

Our lift and crane Engineer Surveyors can compile inspection reports on-site via mobile tablets, helping our customers to receive their report in the quickest time possible.

### 04. Download reports online

Our eServices website provides quick and secure access to download our customers' inspection records online.

### 05. Safety is our priority

We're committed to keeping our customers and Engineer Surveyors safe, and ensure that every Engineer Surveyor has a Safety Assessment Federation (SAFed) passport.

### 06. Bespoke solutions for your business

We offer tailored solutions to meet our customers' individual needs, such as one-off inspections, bespoke consultancy services and legislation training.

All information is correct as of January 2017.
